Information About Directory

Directory Updates/Corrections

This document is a work in progress. Providers are welcome to add or remove information about their agency and services at any time. These behavioral health resources are also included in an online county health resource locator found at davis4health.org.

If you have a resource you would like added to the directory or need to update your information please contact:
Isa Perry, Community Outreach Planner, Davis County Health Department, 801-525-5212 or isa@daviscountyutah.gov.

Background

In 2013, access to behavioral health services was identified as a top public health improvement priority in Davis County. A community action group was formed to address the issue. They recognized the need to assess mental, emotional, and substance abuse services offered in Davis County. This directory is an initial step to improve access to behavioral health services by identifying behavioral health providers and describing services offered.

Those interested in helping to improve access to mental/behavioral health services can join the community health improvement action group working on the issue. The group has been meeting since fall of 2013. To find out more information or to participate in group meetings contact Jill Swain, Davis Behavioral Health, jills@dbh.utah.gov, 801-336-1844 or Isa Perry, Davis County Health Department, isa@daviscountyutah.gov, 801-525-5212.
