Navigating The world of Assistive Technology (AT)

Devices, Support and Services

Presentation Outline:

- 1. Overview of the Utah Center for Assistive Technology (UCAT)**
- 2. Overview of the Utah Assistive Technology Teams (UATT)**
- 3. Other resources for Assistive Technology across the state**
- 4. Important areas to discuss.**
- 5. Show and tell**

Kent Remund M.S, ATP, CRC

- **OPTIONS for Independence**

- AT Specialist 1997 - 2001

- **Utah Center for Assistive Technology**

- Shop guy/AT specialist 2001 - 2008

- **Utah Center for Assistive Technology**

- UCAT Director/AT Specialist 2008 - 2014

- **Utah Center for Assistive Technology**

- UATT Project Director/ AT Specialist 2014 - 2020

- **Utah Center for Assistive Technology**

- UCAT Director/AT Specialist 2020 - Present

Assistive Technology... What Is It, Exactly?

- **AT has two parts**
 - AT Devices
 - and
 - AT Services
- **Let's define them.....**

Boring Definition

An AT **device** is any item, piece of equipment or product system, whether acquired commercially off-the-shelf, modified, or custom-made that is used to increase, maintain, or improve functional capabilities of individuals with disabilities.

i.e.,

“Stuff”

Tech Act Amendments of 1994

Types of Assistive Technology

- Level of technology
 - High
 - Medium
 - Low

Rule of Thumb

Cost follows level of technology

Other Boring Definition

An AT **service** is any service that directly assists an individual with a disability *[or family member or caregiver]* in the selection, acquisition, or use of an AT device.

a.k.a.

“Help with Stuff”

Tech Act Amendments of 1994

Key Point

- Often people only think of the device forgetting the professional services needed to assure best match of device and requirements.
- Result is waste of resources with abandonment of AT devices.
- 30% of all AT is not used. (JAN 2007)

What is UCAT?

- Central “Hub” of Utah’s AT Program
 - Demo/loan bank
 - Hands-on computer center
 - Heavy-duty shop
 - Eight assessment experts

Utah Assistive Technology Teams

FAPE

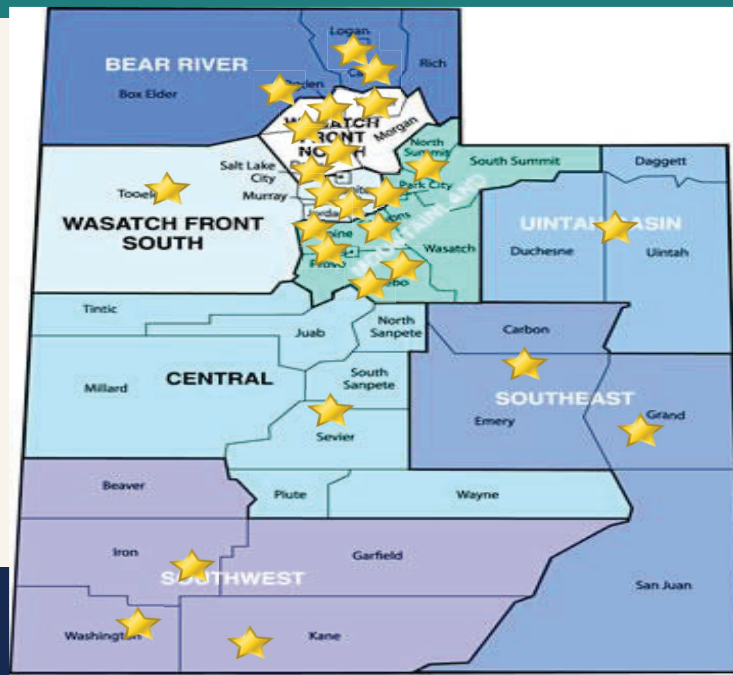

Students with disabilities sometimes need and are entitled to special equipment and services to ensure that they have access to a free and appropriate public education (FAPE)

On a case-by-case basis, the use of school-purchased assistive technology devices in a child's home or in other settings is required if the child's IEP Team determines that the child needs access to those devices in order to receive FAPE.

IDEA Sec. 300.105

Utah Assistive Technology Teams

Utah Assistive Technology Teams

“In order to support the inclusion and participation of students with disabilities in regular education classrooms, all IEPs developed for children identified as needing special education services, must indicate that AT has been considered to “provide meaningful access to the general curriculum.” (IDEA, 1997).

IEP Consideration

IDEA legislative consideration of technology (Individualized Education Program) plan to support participation in his/her least restrictive learning environment.

Your School/District _____ SpEd 6a1 05.08
 Your City _____

Individualized Education Program (IEP)

Student _____ Birthdate _____ Date of IEP _____
 Classification _____ Grade _____

Services needed to advance toward annual goals and to be involved and progress in the general curriculum.
 G = General education class, S = Special education class including resource, O = Other, D = Daily, W = Weekly, M = Monthly

*Special education services (e.g. reading comp., math calc., social skills)	Location	Amount of Time	Frequency
_____	<input type="checkbox"/> G <input type="checkbox"/> S <input type="checkbox"/> O	_____	<input type="checkbox"/> D <input type="checkbox"/> W <input type="checkbox"/> M
_____	<input type="checkbox"/> G <input type="checkbox"/> S <input type="checkbox"/> O	_____	<input type="checkbox"/> D <input type="checkbox"/> W <input type="checkbox"/> M
_____	<input type="checkbox"/> G <input type="checkbox"/> S <input type="checkbox"/> O	_____	<input type="checkbox"/> D <input type="checkbox"/> W <input type="checkbox"/> M
_____	<input type="checkbox"/> G <input type="checkbox"/> S <input type="checkbox"/> O	_____	<input type="checkbox"/> D <input type="checkbox"/> W <input type="checkbox"/> M

*Related services (if required for student to benefit from special education)

The IEP team considered the following special factors:

Behavioral strategies for the student whose behavior impedes his or her learning or that of others. No strategies needed Strategies addressed in IEP and team referred to the *USOE Special Education LRBI Guidelines*

Language needs for the limited English proficient student. No action needed Needs addressed in IEP

Braille instruction for the student who is blind or visually impaired. No Braille instruction needed Braille instruction addressed on IEP

Communication needs for this student, and if this is a student who is deaf or hard of hearing, consider their language and communication mode as well as other special communication needs. No communication needs Communication needs addressed in IEP

Assistive technology devices and services for the student who, without them, would not benefit from special education. No assistive technology needed Assistive technology addressed in IEP

• Assistive technology access needed in the home in order to receive FAPE? Yes No N/A

EXCEPT for special education cases where it is necessary to ensure the student will participate in the regular class, regular PE, extra-curricular and non-academic activities to the same extent as non-disabled students, or other exceptions (specify and explain).

Participation in Statewide and District-wide Assessment (See attached addendum)
 If the IEP team determines that the student must take an alternate assessment to a particular regular state or district-wide assessment of student achievement, include a statement of why the student cannot participate in the regular assessment and why the particular alternate assessment selected is appropriate for the student.

The IEP team considered the following special factors:

Behavioral strategies for the student whose behavior impedes his or her learning or that of others. No strategies needed Strategies addressed in IEP and team referred to the *USOE Special Education LRBI Guidelines*

Language needs for the limited English proficient student. No action needed Needs addressed in IEP

Braille instruction for the student who is blind or visually impaired. No Braille instruction needed Braille instruction addressed on IEP

Communication needs for this student, and if this is a student who is deaf or hard of hearing, consider their language and communication mode as well as other special communication needs. No communication needs Communication needs addressed in IEP

Assistive technology devices and services for the student who, without them, would not benefit from special education. No assistive technology needed Assistive technology addressed in IEP

• Assistive technology access needed in the home in order to receive FAPE? Yes No N/A

AT Consideration

AREA – Academics:	Need AT? <input type="checkbox"/> Yes <input type="checkbox"/> No
Reading:	Use of pictures/symbols with text; talking electronic devices to speak challenging words; audio books; electronic books; use of electronic text-to-speech software
Written Expression:	Graphic organizer; word processor with spell checker; word predictions; electronic spell checker/dictionary; adapted paper; alternative writing utensils (including grips); talking word processor; slant board; prewritten words/phrases on cards or pocket charts; voice recognition software
Math:	Abacus, number line; software for object manipulation; calculator; with/without large keys/display/voice output; special paper for number alignment; enlarged math sheets; grid paper; manipulatives
Executive Functions, Learning/Study:	Print/picture schedule; aids to find materials (color coding...); electronic organizer; educational software; highlighting text; pagers/electronic reminders; duplicate books; smart pen
AREA – Sensory:	Need AT? <input type="checkbox"/> Yes <input type="checkbox"/> No
Hearing:	Signaling device; closed captioning; loop system; FM system (personal or classroom)
Vision:	Magnifier, screen magnifier; screen color contrast; braille materials; braille translation; enlarged or braille labels for keyboard; enlarged materials; alternate color text/background; talking word processor; large cursor; enlarged books
Tactile/Movement:	Weighted vest/blanket/ etc.*; movement cushion; specialized seating; fidget toys; chew toys *Consult Occupational Therapist to ensure safe implementation
AREA – Communication:	Need AT? <input type="checkbox"/> Yes <input type="checkbox"/> No
Expressive/Receptive/Functional:	Communication board with pictures/words/letters/objects; eye gaze frame; voice output device; scanning board; repetitive /predictable books
AREA – Physical Access:	Need AT? <input type="checkbox"/> Yes <input type="checkbox"/> No
Environmental Control:	Appliance controls; battery operated toys/learning aids; key-guard; alternative keyboard; word prediction; track ball/joystick/head mouse; switch scanning; on screen keyboard; adaptive switches; adapted eating/drinking/dressing/hygiene tools; alternative access software
Positioning/Mobility/Seating:	Non-slip surface on chair; cushion; footrest; adapted or alternate chair; custom seating system; stander; positioning aids; hand/arm support; lap tray; walker; grab bars/rails; wheelchair; crutches; parallel bars
AREA – Computer Access:	Need AT? <input type="checkbox"/> Yes <input type="checkbox"/> No
Computer Access:	Touch screen; adapted mouse, joystick, trackball; key guard; head mouse; switch/switch adapter; switch with scanning; on-screen keyboard; text to speech; word prediction; on-screen keyboard; alternative keyboard; speech recognition; touch pad; <u>eyegaze</u>

Assistive Technology Resources Across Utah

- [Utah Center for Assistive Technology \(Vocational Rehabilitation\)](#)
- [Utah Assistive Technology Teams](#)
- [Utah Independent Living Centers](#)
- [Division of Services for People with Disabilities](#)
- [Utah Assistive Technology Program \(Logan, Uinta Basin\)](#)
 - [Refurbished mobility devices](#) – [Customized devices](#) – [Small grants](#) – [Low interest loans](#)

UCAT Continued

- Evaluation of needs
- Help with device selection
- Custom device fabrication or mod
- Trial of various PC access devices
- Home- and jobsite assessments
- Trial loan of devices
- Assess voice-input aptitude
- Funding advice

Demo/Loan Bank

- Library of devices a client can check out for a trial at home
- Assessment process narrows the choices to the one that seems best
- Client tries it at home for up to a month
- Once success is demonstrated, we can recommend purchase with confidence

What Can AT Do?

- Restore functional capabilities
- Mitigate the impact of a disability
- Increase independence
- Enhance the education process
- Aid an individual to become more employable or possibility of advancement.

What does “AT” look like?

- AT can be sorted into 7 general types
 - based on the primary function
- These aren't chiseled in stone
 - Some may fit into more than one
- Let's look at the categories

Types of Technology

- Augmentative alternative communication (AAC) devices
- Aids to daily living
- Electronic aids to daily living (EADL)
- Alternative PC access devices
- Seating and positioning aids
- Ramps and lifts
- Mobility aids

Let's look briefly at each of them

AAC Devices

- Allow non-verbal people to communicate
- Low to high tech solutions

Aids to Daily Living

- Help with many basic tasks
 - Pen and pencil holders
 - Bent-handled eating utensils
 - High-backed plates
 - Sock-donning aids
 - Reachers and grabbers
 - Memory aids (PDA, Cell phones)

Electronic Aids to Daily Living

- Turn on and off lights
- Control the environment
- Temperature
- Phone calls

- Alexa/Google Home/ Siri

Alternative Computer/Tablet Access

- Various non-traditional ways to access a device
 - Trackball
 - Glide pad
 - Joystick
 - Single- & dual-switch scanning
 - On-screen keyboard
 - Voice-input technology
 - Alternative mounting of controls

Seating and Positioning Aids

- Various ways to ensure posture is the best it can be
 - Specialized cushions
 - Customized head supports
 - Customized torso supports
 - Transfer benches

Ramps and Lifts

- Essentially, these are ways for people with mobility impairments to move to different levels in a building

- Stair glide
- Platform lift
- Porch lift
- Ceiling lift
- Entry ramp

Mobility Aids

- Canes
 - conventional
 - four-footed
- Walkers
 - No-wheeled
 - 2-wheeled
 - 4-wheeled
- Wheelchairs
 - manual
 - Powered

Universal Design for Learning

Universal Design for Learning

- Read&Write for Google
- Microsoft word
- Google Docs – “Tools” tab > Voice typing
- Grammarly – Chrome extension
- PC computers/ Apple Computers
- Cell phones and tablets

Transitioning Into Adulthood

- Utah Board of Education
- Utah Parent Center
- Vocational Rehabilitation

Utah Center for Assistive Technology (UCAT)

The Utah Center for Assistive Technology (UCAT) is a statewide resource offering information and technical services to help people with disabilities acquire and use assistive technology devices. UCAT offers free evaluations to anyone within the state of Utah.

Free Consultation / Referral Form

If you are seeking a free consultation with UCAT, please fill out a referral form and email it to ucatl@utah.gov.

[Download Referral Form](#)

Who We Serve

Our services are available to people with disabilities, parents and other family caregivers, rehabilitation counselors, independent living specialists, special educators, occupational therapists, physical therapists, allied medical professionals, and other who are concerned with and advocate for people with disabilities.

Customized Devices

Sometimes, a commercial, off-the-shelf assistive device is just not quite right to fill a specialized need in the life of a person with a disability. UCAT has a well-equipped workshop and skilled staff who can modify the device to meet the need. We also have the tools and expertise to design and fabricate new solutions to fill unusual needs. Our Assistive Technology Specialists can help you in the following ways:

- Design, build and fabricate custom devices.
- Modify devices to better meet a need.
- Help define seating and positioning needs to ensure maximum effectiveness of a seating solution.
